

Stainless Steel Work Tables

FabWright stainless steel work tables are available in standard lengths of 2', 3', 4', 6', 7', 8', 10' and 12'— with or without 5/8" thick, white NSF approved polyethylene tops segmented for easy removal. These fully assembled work tables feature 16 gauge, 304 No. 4 grade finish stainless steel. Each table is mounted on 1 5/8" stainless steel tubular legs with vermin resistant, adjustable bullet feet and reinforced with 1" stainless steel cross-bracing when there is no undershelf. Tables with backsplashes have 3/4" radius coves. FabWright Inc. will meet your specific individual and design requirements.
